CASTAIC LAKE WATER AGENCY

MISSION STATEMENT: A PUBLIC AGENCY PROVIDING RELIABLE, QUALITY WATER AT A REASONABLE COST TO THE SANTA CLARITA VALLEY.

THE CASTAIC LAKE WATER AGENCY (CLWA) was created in 1962 by a special act of the State Legislature. Its main mission is to serve as the contracting entity with local retail purveyors for water from the State Water Project, and to oversee the management of water supplies in the Santa Clarita Valley. CLWA was granted powers that enable it to participate in a wide scope of water management activities, including water quality and groundwater issues. CLWA's current projects within the watershed include updating of the Upper Santa Clara River Integrated Regional Water Management Plan, salt and nutrient management planning, and implementing recycled water and conservation programs.
